HPGL Manager

The HPGL Manager enables presentation of unlimited sized plot files on screen in the HP-GL (Hewlett Packard Graphics Language) and HP-GL/2 formats, and conversion of the files to other graphic file formats. Scale and origin can be configured.

Conversion

Available output formats are: CAD: DXF, IGES Plotter: HP-GL, HP-GL/2, Aristo, Lasercomb NC Code: DIN 66025, Deckel, SM. Printer: Postscript, HP/GL (PCL5)

Command Line Mode

In command line mode, HPGLMAN can be used as batch oriented conversion tool. Example: WHPGLMAN *.PLT /CPS /D3 converts all HPGL files to Postscript files. WHPGLMAN *.PLT /G will print all HPGL drawings by the default printer.

Postscript

Text font and text width can be configured. Colors can be assigned to different line thicknesses.

NC Code

The NC Conversion feature can for be used i.e. for engraving cutting or prototype boards with a CNC machine.

Hard- and Software Requirements

The DXF Manager is a vailable as 32-bit app or 64-bit app for Windows 11, Windows 10, Windows 7.

Scope of Delivery

HPGLMAN Program, user manual (pdf) with description of graphic formats, license agreement for indefinite period of time, with update rights.

Guarantee

HEXAGON gives a 24 month guarantee on full functionality of the software. We provide help and support by email and hotline without extra charge.
